

Responsible visitor's **best practices**

As an event organiser, our responsibility is to limit our environmental footprint while promoting more inclusive and socially responsible practices.
To collectively deliver a better event, as part of a continuous improvement approach, we invite you, as a participant, to adopt simple and effective actions.

Transport

CHOOSE LOWER-IMPACT OPTIONS

Prioritise lower-impact mobility solutions, for example by using public transport.

DID YOU KNOW?

Flying from Paris to Amsterdam generates more than 11 times the CO₂ emissions of travelling the same route by train.*

* Ecopassenger (EU, 2025)

Tickets & maps

CHOOSE DIGITAL OVER PAPER

Unless a printed access badge is required, please present your ticket in digital format to avoid unnecessary consumption of paper and water.

Remember to delete your digital tickets from your phone once the event is over.

Consumption

ADOPT THE RIGHT HABITS

Be careful about what you consume at the exhibition, so as to prevent waste.

Remember to use the sorting bins provided, which will help us recover and recycle waste.

Whenever possible, opt for a lunch that includes local, seasonal and/or organic ingredients.

For example, tomatoes grown in a greenhouse out of season generate 8 times more CO₂ emissions than seasonal tomatoes grown in the ground.

WiFi !

BETTER THAN 4G & 5G

Once you arrive, log in using WiFi (it's free!) if the venue offers it.

DID YOU KNOW?

Mobile networks (4G/5G) consume nearly four times more energy than fixed networks for the same volume of data.*

* French Regulatory Authority for Electronic Communications (ARCEP), 2025

Energy

WE'RE REDUCING OUR ENERGY USE!

We strive to save energy at our exhibitions by reducing our use of heating and air conditioning.

Keep that in mind when you're preparing for the venue, and dress accordingly!

All Comexposium teams thank you for your efforts and look forward to welcoming you.
